

Will You Become Informed?

The ADVERTISER has a bona fide Oxford County list of subscribers in Oxford County, and it is a fact that the ADVERTISER is the only paper printed in the county.

The Oxford Democrat of last week says: "We do not know what the circulation of the ADVERTISER is, not withstanding its periodical statements, and we are not so anxious to find out, as to adopt any underhand, sneaking methods to ascertain what our contentment is doing in Oxford County."

Now, my dear brother, would it be gentlemanly, to say nothing about the facts, for you to accept the proposition made last week and personally examine our list and become informed as to our circulation before you accuse us of quasi perfidy, deception and dishonesty. Could it not rightly be inferred from your recent article that you were wilfully striving to mislead the dear people relative to our circulation by not accepting that proposition and becoming informed yourself? Last week's proposition of examination is still open and we trust it may be accepted. Now, brother, don't get peevish in this matter and attempt to cry down the ADVERTISER's circulation or its statements so long as that proposition remains unaccepted as it comes with very poor grace indeed, from one who takes so lively an interest as you do in all the praiseworthy enterprises of Oxford County.

There have been 369 entries made in the Oxford Registers of Probate court for the past six months.
